About BATD

- Family-owned business since 1965
- Located in Blue Ash, Ohio near Cincinnati
- 23,000 square feet of production, warehouse and office space across two nearby locations
- 20 employees; includes plant and office
- Specializing in jet engine ground support tooling
- Complex, low-volume prototypical parts and large assemblies
- Capable of small to large parts manufacturing
- Long-standing relationships with sub-suppliers
About BATD... continued

• Machining of steels, stainless, aluminum, plastic and other non-standard materials
• Consistent, exceptional quality ratings with our long-term, strategic customers
• Concurrent engineering design change support and expert problem solving
• Design-to-build and reverse-engineering capabilities available
• Rework capable of non-BATD originated parts
• State-certified, journeyman apprenticeship program for training machinists
• Co-op program leveraging area vocational talent
BATD Equipment

- Vertical turning lathes (VTL)
- CNC-driven vertical machining centers (VMC)
- Electrical discharge machines (EDM), both RAM and Wire
- Gear shaping for machining splines
- Lathes, grinders, welders and NC/CNC milling machines
- Inspection and load testing equipment
- 3D printing capabilities using ABS production-grade thermoplastic
BATD Designations

• CCR registered with CAGE code 57404
• DUNS: 004479515
• Small business designation
• S-523 and DSQR Certified in ground support manufacturing for the aviation industry
• CE Certified for products manufactured for Europe
• Awarded the Certificate of Merit from the National Small Business Association
• Honored by Great Oaks Institute of Technology and Career Development for supporting apprenticeship programs and promoting machining trades to youth
• ISO certification - Coming in 2016
BATD Strategic Customers

- Commercial Aircraft Engine Manufacturers
- Military Aircraft Engine Manufacturers
- Department of Defense (DoD, DLA, DCMA)
- US Air Force Military Installations
- US Navy Military Installations
- Other US Government Agencies
